November 29, 2018

Daniel Carneiro Carrettiero  
Maria Camila Almeida

Dear Daniel, and Camila,

It is my pleasure to invite you to my lab to conduct collaborative research within my group. I would look forward to your arrival in mid-April at the latest and would be pleased if you could stay for up to one year with the possibility of extending your stay if you obtain additional grant support. My hope is that your stay in the lab will make possible an ongoing collaboration between our labs when you return to Brazil. Financial support for your stay here will be provided from my grant funds. The research project will be directed toward neurodegeneration including Alzheimer's disease.

Sincerely,

A handwritten signature in cursive script that reads "Kenneth S. Kosik".

Kenneth S. Kosik, M.D.
