

Paris, May 23 2018,

### **Letter of Acceptance**

Following the discussions with Dr. Fernando Carlos Giacomelli, I herein confirm that he is being invited to lead his postdoctoral studies at our University. I have the possibility of accepting Dr. Fernando Carlos Giacomelli for a 12 months stay in the Institut Parisien de Chimie Moléculaire (Université Pierre et Marie Curie). The tentative period of his stay from February 2019 to January 2020 is convenient for us and matches well with the work activities proposed in the joint project. Thus, I am looking forward to our common future work in Paris.

P. Guégan
