Here is the postdoc research project.

You can replace and keep talking about the "mentor's lab" (instead of when I was using my lab etc... you can cut the entire Vertebrate section, etc).

Sylvain

Sylvain Doré PhD

Professor, Anesthesiology, Neurology, Psychiatry, Pharmaceuticals, and Neuroscience

Program Director of Research Operations, Department of Anesthesiology

Center for Translational Research in Neurodegenerative Disease

University of Florida College of Medicine

1275 Center Drive, Biomed Sci J493, PO 100159, Gainesville, FL 32610

**Subject:** Important: Post-doc Project

Dear Professor Sylvain Doré,

On April 23 I sent you an email with a plan of study and project for my postdoc (see message below). I am writing now just to remind you who I need your agreement regarding this study plan to continue the process here in Brazil. I will be very grateful if you can back me up on April 30, so that I can submit the proposal still

in the demand of this month (for the Brazilian Agency).

Sorry for my insistence, but if I do not submit the process until April 30, the beginning of the post-doc will be delayed for another month.

Sincerely yours,

Fúlvio Mendes

Dear Professor Sylvain Doré,

It is with great happy that I inform you that my license at Universidade Federal do ABC for completion of a post-doctoral internship in your Institution was approved internally. The direction of the University asks only to be included in your letter of acceptance the period of the internship. You may write that I will start in September 2014 with duration of one year with possibility to be renewed for 6-12 months, if necessary.

At this phase, I need to submit the research project / plan of study for the Brazilian agency responsible for my salary funding support during my permanence in EUA. I took the liberty to propose a research project according to tests you have done and that I would like to learn. We will not have to fulfill exactly what is in the project, since it is only a **plan of study**. Feel free to make any changes that you consider necessary. I also thanks if you may include a execution schedule at the end.

**Important:** I need to submit this project until April 30, to avoid disturbing the period planned for start the post-doc. Do you think you can send me this feedback until this date? I await your return as soon as possible.

Best regards,

Prof Fúlvio Mendes

Here is the letter... let me know if not ok.  
I have also attached my CV  
Best,  
Sylvain
